Replacements

9W	=	50W
11W	=	60W
14W	=	75W
18W	=	90W

Save Energy up to 80%

Lasts 10 times longer

MINISPIRAL is the top of the list among the most popular **LUXLITE** bulb with our global distributors. Smaller in size and brighter light output among other bulbs in its class **MINISPIRAL** is outstanding. Another feature is the rounded edge bending of the glass tube comparing with regular linear spiral shape it is very distinctive in bulb tube design.

Owing to smaller size and overall length **MINISPIRAL** fits almost all lighting fixtures that uses regular incandescent bulb making it the most versatile compact fluorescent light bulb. If you prefer a cozy warm light or refreshing daylight color, **MINISPIRAL** could change your perception of aesthetic design and practical application of a CFL bulb.

MINISPIRAL is the perfect choice for table lamps, kitchen lighting, bathroom / bedroom fixtures, walkways, porch lighting/ doorway, chandeliers, scones etc.

Model No	Watts	Lumens	Diameter		Length (MOL)
