SPIRALAMP is the new generation design of popular Spiral bulbs. New computer aided design lamp housing makes its overall length much smaller. Other features of **SPIRALAMP** bulb's new design is heat management system, more space allocation for components setting and wider lighting distribution. **SPIRALAMP** has been the choice for ideal replacement to those fixtures required strong light but not enough space for bulbs with longer overall length.

Maximum overall length of **SPIRALAMP** is about 5" or 130mm and able to produce up to 2200 lumens or 175 watts of incandescent bulb replacement making it one of the most sought after CFL light source for common lighting applications.

SPIRALAMP is very suitable for table lamps with shorter harps, globe shaped fixtures, down lighting or recessed applications in homes, offices, shops, galleries etc.
